# Picking a Name + Logo

1 March/95

~~Lake Tréguois Forest~~

Ann + Scott not present.

~~Maple - Beech Woods~~

→ Sylvan Wilds

→ Taddle Creek Woods.

→ Zooboretum

~~Wildscape~~

We'll decide on 13 March.

~~Zoology Woodlands~~ ↙

Zoowilds

1) What does it say about history?

~~Zootecture~~

2) " " " " " Zoology?

→ Zoo woods

3) " " " " to the public/campus?

→ Witch-hazel Woods.

4) " " " " " project?

Zootands.

5) Should sound awfully "good".

→ Zoowilds

## Zoology Landscape Committee

### Name the "What-z-it?" Contest

The landscape committee needs a moniker for the department's venture into "naturalizing" the Zoology grounds. We've come up with a number of suggestions, but thought the combined wit of the department might be brought to bear on the matter. So, if you fancy one of the following, or have a suggestion of your own, email your preference to me (login: "steve"), or put a paper copy in Pat William's 401 mailbox. We'll accept suggestions up to the 31st of January.

We're also looking for a logo to use with the department's landscaping project. If you've an idea for the logo, we'd love to see it.

Oh, yes and there's a prize for the name and the logo that gets the nod. We having quite worked out \*exactly\* what these will be, mind, but they will be nice, very nice. Pots of trilliums perhaps?
